

Paul Landsman CST, AAS Clinical Coordinator

Biography

I have been a Surgical Technologist since 1994. I am one of those people who absolutely love the field of Surgical Technology and want to do my best to make a difference. I have been teaching at South Plains College for 12 years now. My roll here is full time instructor and Clinical Coordinator. I teach Medical Terminology, Introduction to Surgical Technology, Technical Science, and Surgical Procedures 2. I also oversee the clinical experience for 20 students at 8 clinical sites. I love teaching and sharing my knowledge. If you have any needs, I will do my best to help.

I am currently in school finishing up my bachelor's degree at Wayland Baptist University and the young age of 50. My plan is to continue with my education.

Specialties

First, and foremost, my specialty is hearts, vascular, and cv. I also love general surgery and urology.
