

GUARDIANS OF THE STERILE FIELD

The sterile field doesn't protect itself. Surgical technologists maintain and defend it—because even the smallest break can have serious consequences.

GUARDIANS OF PRECISION

From instrument selection to anticipating the surgeon's next move, surgical technologists ensure every detail is exactly right.

NATIONAL SURGICAL TECHNOLOGISTS WEEK

SEPTEMBER
20-26, 2026

GUARDIANS
OF THE OR

GUARDIANS OF THE PATIENT

Patients may never meet their surgical technologist—but they are protected by them every step of the way.

GUARDIANS OF THE OR

Protecting Every Patient.
Every Procedure.
Every Time.

GUARDIANS OF THE TEAM

Great outcomes require strong teams. Surgical technologists keep procedures moving, support communication, and help the entire OR function seamlessly.
