

## **Colleen Davis**

Colleen is one of the BEST CST in our department. She is beyond helpful and knowledgeable, has super sharp OR "ears" and is always a step ahead.

-Christina Woo

## **Joan Maceachern**

I am nominating Joan because she took on the role of surgical support tech in the operating room in Sanford, Maine, where we focus on outpatient surgeries. She consistently goes above and beyond, ensuring that the correct equipment is ordered each week. Joan makes sure sales reps are present for surgeries when needed and communicates effectively with surgeons while looking ahead at the schedule weeks in advance. -Rae Thompson

## **Kimberly Welch**

This person exceeds expectations in more than one category, but Outcome Assessment best fits her contributions. She deserves to be recognized for everything she brings to the unit. -Courtney Knudson
