

## Maricela Chavez, MHA, CST Program Director

---

### Biography

TVCC alumni with a certificate as a Surgical Technologist and an associate degree. This career created my passion for surgery while working in the OR for over twenty years. I began teaching in 2014 as the surgical technology instructor and clinical coordinator which quickly evolved into the role of the Program Director. Working in the education system encouraged me to continue my education to better myself and my students. I currently hold a Master's in Health Care Administration and work at Texas State Technical College.

### Specialties

I am a confident, enthusiastic individual devoted to healthcare and sharing my expertise in surgical technology and education while focusing on leadership skills. I am always interested in gaining more knowledge when the opportunity arises and dedicated to work towards fulfilling organizational goals. I would love to help guide new personnel teaching or leading in a surgical technology program.
