

**SCHOOL OF SURGICAL TECHNOLOGY
CLINICAL EVALUATION**

Student's Name: _____

Class of: _____ SS# _____

Evaluator: _____ Date: _____

- 5. Superior (100) (student performs task perfectly, can teach others)
- 4. Excellent (90) (student performs task well, needs no supervision)
- 3. Average (80) (student performs task with some supervision)
- 2. Below Average (70) (student can perform task only with direct supervision,
Student is not performing at the expected skill level)
- 1. Unsatisfactory (60) (student is unable to demonstrate task)
- 0 N/A (not applicable, student can not be judged at this time)

GENERAL KNOWLEDGE

OBJECTIVES	0	1	2	3	4	5
Demonstrates knowledge of aseptic technique Applies that knowledge in the clinical setting						
Demonstrates knowledge of anatomy and physiology Relates knowledge of anatomy to surgical procedures						
Demonstrates knowledge of infection control principles Applies knowledge to surgical procedures						
Demonstrates knowledge of surgical instrumentation						
Displays knowledge of anesthesia routines in the operating room						

PREOPERATIVE SKILLS

OBJECTIVES	0	1	2	3	4	5
Prepares all necessary equipment and supplies for the assigned surgical procedure						
Completes surgical case preparation record for each surgical procedure						
Correctly identifies instruments and supplies						
Checks integrity of sterile items and replaces those in question						
Utilizes available computer information (Surgeon's Preference Sheets)						
Displays the ability to organize time effectively Sets priorities appropriately						
Demonstrates knowledge of patient positioning Assists in positioning of the surgical patient						

INTRAOPERATIVE SKILLS

OBJECTIVES	0	1	2	3	4	5
Ensures accessibility of the operative site by proper prepping and draping of the operative site						
Prevents the transfer of microorganisms from surgical team and environment to patient						
Demonstrates the proper use of the autoclave						
Maintains an organized work area, back table and mayo stand						
Properly arranges instruments and supplies on instrument table and mayo stand						
Handles specimens according to hospital policy and procedure						
Passes instruments in position of use						
Anticipates need and sequence of items during surgical procedure						
Anticipates sequence of surgical process						
Labels medications on the sterile field						
Correctly handles medications on the sterile field						
Demonstrates proper loading and handling of suture and needles						
Demonstrates proper use of stapling equipment						
Demonstrates the ability to perform in the role of first assistant						
Demonstrates the ability to perform in the role of second assistant						
Works with speed and accuracy						
Demonstrates safe patient care related to counting of sponges, sharps and instruments						

POSTOPERATIVE SKILLS

OBJECTIVES	0	1	2	3	4	5
Properly prepares for the end of the surgical procedure Prepares drains, dressings, etc.						
Handles contaminated instruments and supplies according to OSHA guidelines and hospital policy and procedure						
Assists with the safe transfer of the surgical patient						
Demonstrates the ability to clean and stock the operating room						

PROFESSIONAL DEVELOPMENT

OBJECTIVES	0	1	2	3	4	5
Adheres to AST, AORN Standards of Practice and hospital policy and procedure						
Attends operating room staff development activities						
Utilizes clinical resources to improve practice						
Maintains a professional demeanor						
Accepts suggestions and criticism in the spirit of educational growth						

PROFESSIONAL DEVELOPMENT (cont.)

OBJECTIVES	0	1	2	3	4	5
Demonstrates positive interactions with physicians and staff members						
Shares clinical learning experiences with fellow students
